STAT

SUBJECT: Factored Support Packages: Phase II

REFERENCES: a. Memo fm EO/DDA to Mtp1 adses dtd 1 Mar 82,

b. Memo for C/P&PS/OL fm C/SD/OL dtd 19 Feb 82,
Subj: Support Resource Package (OL 2-0761)

In the absence of further new initiatives, the figures submitted in response to the DDA Support Resource Package (DDA 82-0436) of 17 February 1982 stand unchanged at [redacted] supply officer.

STAT

a. The existing supply support structure would be adequate to absorb reasonable increased requirements; however, this is based on our stated assumption that the demand would be dispersed in each Directorate.

b. Special project support where personnel increases would be concentrated could conceivably require services beyond the Supply Division's present capability to perform. Multiple task forces requiring senior logistics officers would tax existing resources severely and necessitate a staff increase.

c. Components formed by new personnel increases or reorganization of existing units would require additional staffing. An austere proposal would be to assign at least one logistics officer to any new units formed. Current demands by Headquarters elements indicate the need for such logistics assistance in the event the construction and expansion come to fruition.
